

Community Service

Often SCCO collaborates with other community-wide groups such as 4-H, FFA, Scout programs, Student Council groups, church youth groups and adult groups, etc... to get a job accomplished. When these groups are looking for a volunteer project to assist with, they call us. Projects may involve yard work and landscaping, painting, and even moving furniture.

It is generally recognized as the “hands-on” portion of our organization. If you or your group are interested in helping with a project of some sort, whether it’s cleaning up a yard filled with weeds or hammering in a few nails to secure a deck board, there is a work project waiting for you to help with.

Hero's Attic is always in need of volunteers to help in the moving of our inventory, whether it's to pick up donations or to deliver them, we'll put your back to good use! There is also an opportunity for people with some skill sets to repair pieces of furniture which need a little TLC to get them ready for sale.

Our volunteers have many different categories to choose from when they fill out a Skills Response Card. These cards are then entered into a volunteer database to keep on file as people to contact in relationship to what skills they possess. Categories to choose from include carpentry skills, computer help, yard work, baking, sewing, etc... Practically everyone has some sort of talent they could use to help someone who is in need, but many times it's just a matter of having an opportunity to put that skill to good use.

If you are interested in adding your name to our database or are involved with a group who would be willing to do a work project, please see our page or download the skills card and send it in.
