

Welcome to SCCO Home Repair:

Look over a few pictures of the types of jobs being accomplished for people right here in Shelby County. If you, or someone you know, would benefit from this type of service, contact us to set up an appointment.

The process typically goes like this:

1. A phone call comes in for assistance on a specific job that needs done.
2. An appointment is made to evaluate the project, gather the needed supplies, and perform the work.
3. Prayer is offered if there are any needs or concerns.
4. Service calls will usually last between 30 minutes and 2 hours, depending on the number and type of jobs being worked on.
5. Homeowners are responsible for the cost of materials, while the labor is provided on a donation basis.

Over the years, this ministry has seen its share of interesting and peculiar situations that aren't typically addressed by the average contractor. On numerous occasions we will hear comments such as,

"We just did not know who we could get to do such a thing for us. Thank you for providing a great service to those of us in need."

Consider these scenarios and ask who you might know that could relate:

- I'm a single mom running in 20 different directions, and I don't have anyone to do the small "fix-it" jobs around the house. I have very little extra money, and certainly not enough to hire someone.
- I called a contractor to come and secure the handrailing going down into my basement, but he said that he was having to pass on those little jobs because there just wasn't any money in them.
- I *am that contractor* and although I would like to have helped him out, there's just no way I can pay my bills on little 1-hour jobs. By the time I drive there, unload my tools, do the repair and load back up again, I've actually lost money to do the work!
- My elderly aunt is in need of a couple hours of repairs around her house but I'm just too busy to get out there to do them. Besides, I don't have the right tools to do the work.
- Our church had a workday last Saturday to help out a family who needed some assistance but there's still a few things that got left undone. Now that everyone is back at work this week, who do I find to finish up?

It is our hope and prayer that this type of activity will not only continue as it has been but will increase as time goes by. Our long-term goal is to have several Home Repair Specialists located in different segments of Shelby County to address all the needs out there. We don't want anyone to have to let a job go undone, simply because they can't find someone or can't afford to hire someone to do it.
